

# Blue Stream Fiber makes it easy to cut the cord

Combine Blue Stream's High Speed Internet with any Streaming TV Service. You'll have the power to choose what you want at budget-friendly prices! Whether you want a little TV or a lot, traditional channels or your favorite original programs from Netflix or Hulu, cutting the cord is easy! Blue Stream is here to help you get started.

## Streaming TV 101

With Streaming TV, you can get your local sports, news and weather, popular cable favorites like CNN, ESPN, FX, and Disney as well as access to the hottest original shows and movies on Netflix or Amazon Prime.

## Streaming TV VS Traditional TV

Streaming TV looks, feels and acts very much like Traditional TV service. Both Traditional and Streaming TV services allow you to watch your shows on both your TV and mobile devices. Streaming TV is an online subscription service. You can sign up directly with whichever provider you choose and then that service will be delivered to your home over your Blue Stream Internet.

# Why Consider – Streaming TV Service?

Streaming TV services provide the flexibility to pick the channels and programming you want. And you can save big time! Pick from free TV to subscription services as low as \$20.00/month. If live TV and sports are important to you, there are multiple budget-friendly options to choose from.

## Live

Watch live TV from broadcast TV channels like NBC, CBS and FOX and enjoy cable favorites like CNN, Disney, HGTV, AMC and more in real time. Get access to live sporting events on both broadcast TV and channels like ESPN, TNT, Red Zone, Golf channel and more.

## On Demand

While it doesn't provide live TV options, it does provide access to popular original TV shows and movies exclusively available from that provider. Often includes access to a vast library of previously aired TV shows and a wide library of popular movies.

Hulu + Live TV

## 1, 2, 3!

### Step 1:

#### Choose your Blue Stream Internet Service

Having the right internet connection is crucial to your Streaming TV experience. With our internet speeds up to 1Gig, you can find exactly what you need to not only support your streaming TV, but to also power everything you do on your home WiFi.

### Step 2:

#### Select your Streaming TV service Provider

You can still sit back and enjoy your favorite TV shows, sports and movies at home like you always have, but now you can save big while doing it! Watch on your big-screen TV and on mobile devices. With Streaming TV, you can even enjoy live TV and DVR service. Pick one or mix and match streaming services and get all the entertainment you want delivered right to your home with Blue Stream internet.

### Step 3:

#### Let's Get Streaming

There are so many easy and convenient ways to stream. You can use a Smart TV or DVD player or purchase a streaming device that will enable your streaming services right on your TV.
