

Online Resource Hub: Business Services Construction Timeline

We understand that our services will be crucial for businesses and we are committed to delivering a seamless and efficient construction experience to minimize any disruptions.

Below is an outline on what businesses can expect over the course of construction. Some of these stages may be subject to adjustments to ensure a smooth construction process.

Standard Construction Timeline

| | |
|-----------------------|-------------|
| Design | 2-10 days |
| Permitting | 45-60 days* |
| Locates/Construction | 21 days |
| Prep and Installation | 7 days |

*Depending on municipality

Each business is assigned a dedicated account manager who will provide updates, support, and answer any questions throughout the process.
