

# How to Pair a TiVo Remote Control to Your TV:

With just a few simple steps, you'll be able to control your TV with your Blue Stream Fiber Remote.

## STEP 1

Turn on your TV using the original remote that came with your TV or the TV's **power** button.

## STEP 2

Press the **TiVo** button at the top of your remote to access the **TiVo menu**.

## STEP 3

In the **TiVo menu**, select the **settings** option (three horizontal lines).

## STEP 4

Use the **direction** buttons on your remote to highlight and select the **remote settings** option.

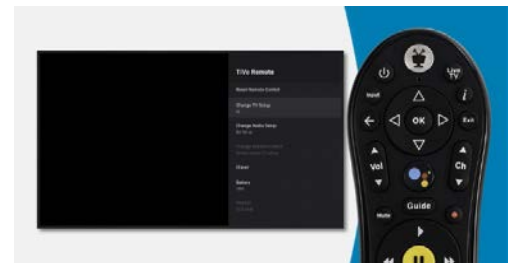

## STEP 5

Next, select the **remote-control programming** option.

## STEP 6

Choose “**change TV setup**” from the on-screen options.

## STEP 7

Follow the on-screen prompts to pair your remote. You will be asked to select your **TV brand**.

## STEP 8

Test your remote by following the on-screen instructions.

## STEP 9

Once the test is successful, you will see a confirmation note on the screen indicating that your television and Blue Stream Fiber remote are now paired.

You can now use the **volume, mute, and power functions** on your remote to control your TV.
