

Watch Your Favorite Channels Wherever You Go

As you get ready to head to your summer home or just want to view your programming on the go, we're excited to help you stay connected to your Blue Stream Fiber TV experience wherever you are.

With the Blue Stream Fiber TV App and the watchTVEverywhere (wTVE) service, you have access to a wide range of your favorite channels and content while away from home. The Blue Stream Fiber TV App allows you to stream live TV directly for many of your favorite channels, while wTVE expands your viewing experience through participating network apps and websites.

wTVE provides access to live programming and an extensive on-demand library, including full and current seasons of your favorite shows from major networks like ABC, CBS, FOX, and NBC—giving you even more flexibility to watch what you want, when you want. To see your robust out-of-home TV lineup as well as a list of participating wTVE networks, visit bluestreamfiber.com/outofhome.

Getting started with wTVE is simple

- 1) Have your Blue Stream Fiber account number handy and go directly to wtve.net—it only takes one minute.
- 2) Once you've registered, visit wtve.net or go to your favorite network's website and/or app, choose Blue Stream Fiber to log in, and then you're all set!

Many apps are available directly through your smart TV or connected device.

For any questions you have about your service, please visit bluestreamfiber.com/learning.
